Quality

formulations and production

Great products begin with great formulations and great formulations begin with great formulators. For over 25 years, Lifeplus has built on the expertise and passion of J. Robert (Bob) Lemon and Dr. Dwight McKee to formulate the finest products available.

Their quest to build a market leading nutritional products company started in the 70's with the purchase of a vitamin supplement manufacturing company to enable them to pioneer state-of-the-art formulations for Lifeplus.

To support their vision, Dr. McKee, who made wide use of nutritional support in his practice, continued to study several advanced areas of medicine. The first of which was to earn a board certification in Internal Medicine, followed swiftly by Hematology and Oncology. But McKee didn't stop there; he went on to work at the Department of Immunology at The Scripps Research Institute, performing groundbreaking laboratory research in tumor immunology, leading to the establishment of an integrated care cancer practice. In 2001, Bob convinced McKee that he could do more good working full-time at Lifeplus where he remains the primary formulator of our products.

Dr. McKee has co-authored a comprehensive text on nutritional science, as well as becoming board certified in Nutrition in 2003 and in Integrated and Holistic Medicine in 2007.

His vast experience in traditional medicine, complementary medicine, nutrition, immunology, chemistry and oncology make him one of the most knowledgeable researchers and clinicians in the world today.

At Lifeplus we focus on quality. Using state-of-the-art facilities, we produce the highest quality products using modern processing methods – including cold processing whenever possible.

Cold production process

Heat destroys enzyme and vitamin activity. To prevent this from happening, we use cold processing to retain the potency of these nutrients. Cold processing is just one of the innovative tools Lifeplus employs to produce products of the highest possible quality.

Home grown quality

We never compromise on quality, which is why we manufacture the majority of our products ourselves in Batesville, AR (USA). This enables us to control and monitor the entire process, paying attention to even the tiniest details to ensure the quality of our products which is why we don't use any artificial additives such as dyes, flavorings or preservatives (Sucralose is used in just a few products as a calorie-free sweetener). Our products are not tested on animals.

Experience the difference

Decades of experience formulating, manufacturing, bottling, labeling and shipping products enables us to guarantee the utmost quality at a fair price – from start to finish. For many years, these high-quality products were only available to doctors and physicians. Today, we are pleased to offer our products directly to you.

Quality innovation

Dedicated research and development

The Research and Development Department at Lifeplus is a highly qualified team led by Dr. McKee and Mr. Lemon. They are committed to continuously reviewing and reformulating products according to the latest scientific findings and their years of combined knowledge and experience.

Proprietary PhytoZyme® Base

The exclusive PhytoZyme® Base is a proprietary formula made from special herbs, phytonutrients, co-factors and plant enzymes that boost its bioavailability. This unique blend of more than thirty different fruits, vegetables and herbs working together synergistically assists in the assimilation of our products' active ingredients.

It includes concentrates of Bromelain, Papain, Alfalfa, Parsley, and vegetable and fruit concentrates from Blueberry, Carrots, Broccoli, Spinach, Cauliflower, Kale, Asparagus, Beet, Chili Pepper, Green Bean, Pea, Sweet Potato, Cucumber, Pumpkin, Snow Pea, Tomato, Watercress, Zucchini, Lima Beans, Maitake Mushroom, Banana, Cantaloupe, Cranberry, Guava, Lemon, Mango, Orange, Papaya, Peach, Pineapple and Grapefruit. Our PhytoZyme® Base is one of the reasons why so many people notice a real difference with Lifeplus.

The magic of synergy

Synergy is a process in which Lifeplus combines specific ingredients in such a way as to impart maximum nutritional benefit to finished products. Combining ingredients in the ideal relationship can have a tremendously positive effect and facilitate the many nutritional nuances we have discovered over the years. Synergy is a major reason that our exclusive PhytoZyme® Base, which is incorporated into almost every Lifeplus product, is so important! It's a Lifeplus extra that helps you feel the difference!

Philosophy

Lifepus Nutritional Supplement Philosophy

One of the most important requirements for optimum health is the routine consumption of a healthy diet, one rich in fresh fruits and vegetables. Virtually every respected health authority worldwide recommends that you consume at least 5 to 9 servings of them every day. Most people realize this, but few people actually do it! **DO YOU?**

Food supplements should not be used as a substitute for a diversified diet, but where else are you going to obtain the nutrients you need to support optimum health if you aren't eating a varied diet that provides them? Most people know this intuitively, but they simply don't know what supplements to take.

This is one reason the **Lifepus Nutritional Supplement Philosophy** was established. It is a simple, yet effective 3-Step program:

Step 1 Supplement with **Daily BioBasics™** each day in your favorite beverage to **nourish** your body.

Step 2 Supplement with **Proanthenols®** to **protect** your cells.

Step 3 Select **Specific Products** for specific nutritional **support** when and if you desire.

People do well with just Daily BioBasics™ and Proanthenols® each day since the basic nutritional needs of almost everyone are similar. However, we also have our own special needs and these can vary from time to time depending upon a person's age and style of living. It is a big plus to have speciality products available when and if you desire them. Simply select from the line of speciality formulas to customize your own program to provide the targeted nutrition you desire.

PROANTHENOLS®

For Real Antioxidant Protection

Proanthensols® contain antioxidant protection based upon 50 years of research by Dr. Jack Masquelier and Berkem Laboratories in Southern France. Proanthensols® is not a pine bark or grape seed product that you can find on a retail shelf, but is built upon Real OPCs™, which are concentrated extracts from special grape seeds and certain types of pine bark found in southern France.

As an added bonus, Proanthensols® help all other antioxidants (including vitamins C and E) work more efficiently in your body! Real OPCs provide nutritional protection for your cells against free radicals and help support the collagen structure in your body.◊ Its popularity and proven effectiveness make it one of our most significant products.

Help protect your cells with the powerful effects of Proanthensols®.◊

Why do we need antioxidants? Smoke, air pollution, alcohol, drugs, radiation from televisions and computers, chemicals and a busy life generate free radicals. Free radicals attack all your vital cellular structures.

Bodysmart

BODYSMART SOLUTIONS Triple Protein Shake

Amino Acids, Vitamins and Minerals in a Triple Protein Powder

Each serving of Bodysmart Solutions Triple Protein Shake is a great addition to your daily diet that provides 20 grams of high-quality protein from three different sources: whey, milk and soy. This means you will receive the full spectrum of amino acids in a readily useable form.

The Bodysmart Solutions Triple Protein Shakes also contain highly bioavailable calcium, magnesium and potassium. Dairy calcium may be beneficial in your diet. These Protein Shakes also contain just one-half gram of fat, and one to two grams of carbohydrates (one gram in vanilla flavor, two grams in chocolate).

BODYSMART SOLUTIONS Multivitamin Gold Formula

Vitamin, Mineral and Herb Tablets for Women and Men

Specially formulated vitamin supplements to be synergistic with the vitamins and nutrients found in the Bodysmart Solutions Triple Protein Shake. If your body does not have all the nutrients it needs to work at maximum efficiency, this will slow down your fat loss. By taking these vitamin formulations, you will get 100% or more of the daily values of all vitamins and minerals without risk of exceeding the safe levels of certain nutrients.

By taking the Bodysmart Solutions Multivitamin Formulas for Men and Women in conjunction with your Bodysmart Solutions Triple Protein Shakes, you can be assured that not only are you receiving all the nutrients that are essential but also a spectrum of nutrition that goes far beyond that.

BODYSMART SOLUTIONS Enerxan®

Chromium and Herb Tablets Help Support Energy[◊]

Energize your Bodysmart Solutions Program with Enerxan. Enerxan will simply get you to the end result quicker. It has many potent metabolism chargers that have been concentrated from green teas, yerba mate, guarana, damiana, cinnamon, chromium, and cocoa, plus the amino acid L-tyrosine.

DIGESTIVE FORMULA

Unique Digestive Tract Formulation

Digestive Formula is a unique digestive supplement that helps support the acidifying and enzymatic steps in the healthy digestive process.[◊] Acidifying nutrients support an environment which normally helps to initiate and facilitate digestion. Supportive carbohydrate, protein and fat-hydrolyzing enzymes further support this process. The multifunctional pancreatic enzymes are especially important, because they help the digestion of all foods, including proteins, fats and complex carbohydrates.[◊] Use of Digestive Formula can help improve digestion in many people.[◊]

You are what you eat, digest and assimilate.

JOINT FORMULA

Nutritional Support for Healthy Cartilage and Joints[◇]

Lifeplus Joint Formula is the most unique and complete glucosamine formula on the market and now it contains Hyaluronic Acid! Hyaluronic acid is a critical component of connective tissue whose function is to cushion and lubricate and it attaches to collagen and elastin to form cartilage.

Joint Formula also contains two types of glucosamine (glucosamine sulfate and N-Acetyl D-Glucosamine), chondroitin sulfate and crucial minerals to help build and maintain healthy, flexible cartilage which is so important to joint health.[◇] Synergistic amino acids from hydrolyzed collagen, the predominant protein in cartilage and all connective tissues, are provided to support healthy collagen and cartilage synthesis.[◇]

Protects DNA and Boosts Immune Function[◇]

DNA Immune is one of the most distinctive products ever. It incorporates the latest scientific technology to support healthy immune function and provide valuable protection to the DNA contained in the trillions of cells throughout your body.[◇]

Exposure to chemicals, harsh environmental factors and lower levels of protective phytonutrients in the diet make it important to support healthy function of DNA in our bodies. Our proprietary blend of the most potent and broad-based mycoceuticals, plus ellagic acid (from pomegranate), Japanese knotweed extract, beta-glucans, IP-6 (inositol hexaphosphate), L-carnitine and specialized immune-supporting herbal extracts provide specialized support for your body's DNA and immune system.[◇]

Support healthy DNA and immune function for optimum health and longevity![◇]

UBIQUINOL 100

Advanced Co-Q-10 Formula

Ubiquinol is the active antioxidant form of Co-Q-10 and is considered to be one of the strongest lipid soluble antioxidants. It is pre-converted, so it is easily assimilated and utilized by the body. Ubiquinol is a critical component of cellular ATP (energy) production within every mitochondria—the “powerhouse” for all cells—in your body. As a result, it plays a vital role in generating energy to power organs such as the brain, heart, kidneys, liver and lungs. The body’s natural production of Co-Q-10 diminishes with age, as does the ability to convert the nutrient into ubiquinol. While everyone is different, maintaining a healthy level of Co-Q-10 is very important.

- Is one of the most potent fat-soluble antioxidants available. And, because it is fat-soluble, Ubiquinol penetrates deep inside your cellular and mitochondrial membranes.
- Protects your energy-producing mitochondria from free radical damage, thus indirectly supporting energy production.◊
- Is absorbed up to 8 times more efficiently than the standard Co-Q-10.
- Recharges other antioxidants in your body, such as glutathione and vitamins A, C and E.◊
- Supports cardiovascular and cognitive health.◊
- Promotes healthy lifestyles as well as increasing your energy and stamina.◊
- Is a major cellular communication substance, as it has been shown to activate nearly 700 different genes!◊

Ubiquinol 100 helps maintain a healthy body by giving you more energy and even better antioxidant protection.◊

D-MANNOSE PLUS

D-Mannose is a natural sugar, which is minimally metabolized for energy, and does not stimulate insulin release. It is useful as a dietary supplement, especially when combined with cranberry extract which is a natural source of D-Mannose, as well as many other phytonutrients. Together, they help support healthy bladder and urinary tract function.◊

Native to North America, and a distant cousin to the European cowberry and huckleberry, the cranberry was recognized by Native Americans as a staple part of their diet. Today, cranberry-based products are enjoyed worldwide.

D-Mannose Plus is a quality nutritional supplement based on our proprietary D-C Complex™ (D-Mannose and Cranberry Extract), manufactured to high quality standards in an easy-to-use capsule form.

ANTI-STRESS FORMULA

Take Control of Your Occasional Stress

Anti-Stress Formula is a comprehensive formula to help control occasional stress.[◊] It contains amino acids such as L-tyrosine and L-phenylalanine that can be converted into the “feel-good” neurotransmitters in the brain, which need extra support under stress.

We have combined these compounds with essential B-Complex vitamins, along with botanical extracts of American ginseng, eleuthero root extract, gotu kola, ginkgo biloba and wild yam. Other synergistic nutrients such as bioflavonoids are included to provide you with much more than just a regular stress formula.

X-CELL

Circulation Enhancer[◊]

X-Cell is an arginine-based formulation designed to support healthy nitric oxide production, facilitate ammonia and lactate removal to moderate muscle fatigue, support immune health, maintain acid-base balance and provide antioxidant protection.[◊] It is provided in a great-tasting sugar-free, citrus-flavored powder for convenient use.

Researchers won the Nobel Prize for proving that the main ingredient in X-Cell – L-Arginine – produces “NO” in your body. “NO” stands for nitric oxide and is actually what your blood vessels use to stay dilated (open) so your blood can flow through them more easily and efficiently.[◊]

The organs in your body for which optimal blood flow is most critical are your heart, brain, and sex organs. Firm up your circulation with X-Cell![◊]

PROSTATE FORMULA

For Men of All Ages

As men mature it is important to focus on their prostate health. Paying extra attention to their diet is one very important step for men to take. They should especially avoid extra saturated fats and eat a plentiful supply of colorful fruits and vegetables. A healthy prostate can also be supported by adding the high-quality nutritional support contained in Prostate Formula.◊ The high-quality extracts from saw palmetto berries and pygeum are included for their legendary activity in sustaining healthy prostate and sexual function.◊ The lipid fraction of pumpkin seeds are rich sources of beta-sitosterol which, in its purified form, also supports prostate health.◊ Interestingly enough, this same formula provides outstanding nutritional value for health of the female cervix and helps maintain vigorous sexual energy for both men and women.◊

Prostate Formula is a convenient way to support your prostate health.◊

BRAIN FORMULA

Helps Energize Your Mind[◊]

The final decade of the 20th century witnessed an explosion of research in the neurosciences. We now have evidence suggesting that the special nutrients and unique plant extracts included in Brain Formula help neurons (brain cells) maintain healthy cellular energy production by promoting healthy mitochondrial function, scavenging free radicals and promoting healthy blood circulation.[◊]

Antioxidants, specific neurotransmitter nutrients and synergistic herbal concentrates included in Brain Formula support healthy brain cell communication, especially throughout the vast network of tiny blood vessels of the brain, enabling you to stay focused, alert and functioning at peak mental capacity.[◊] Activity of the neurotransmitters nutritionally supported by Brain Formula is associated with healthy mood, memory, mental acuity and alertness, without need for stimulants such as caffeine.[◊]

VITAMIN-E-COMPLEX

Why use Vitamin-E-Complex?

Vitamin E is one of the single most important antioxidants and is considered to be the master vitamin that provides nutritional support to the lipid portions of our cells, such as the cell membranes.[◊]

Vitamin E helps nutritionally support red blood cells that carry oxygen to tissues and organs throughout the body. It is an antioxidant that helps support the nervous, cardiovascular and circulatory systems.[◊]

The Lifeplus Vitamin-E-Complex contains all eight isomers that constitute the natural vitamin E family (4 forms of vitamin E and 4 forms of tocotrienols) in ratios similar to those found in nature.

SOMAZYME™

Supports a Healthy, Youthful Body[◊]

Think about all the chemical reactions that occur in our bodies within the period of a minute. They are too numerous to mention. Our bodies use enzymes to support these chemical reactions. Unfortunately, because of improper diet and the fact that heat destroys many enzymes, you may not be receiving all you need to properly support your overall health.

Somazyme is an easy way to supplement your daily enzyme intake. Somazyme supports the body's natural ability to break down many of the larger molecules, so that they can be metabolized in a healthy way. The enzymes in Somazyme naturally and nutritionally support a youthful body and provide antioxidant support, as well as support healthy pancreas and immune system function.[◊]

VITAMIN-C-PLUS

Supports Healthy Immune System^o

Vitamins are classified as “essential” or “nonessential” based upon whether or not your body sufficiently manufactures it. Vitamin C is considered to be an essential vitamin. Lifepus Vitamin-C-Plus tablets provide the body with not only the essential vitamin C it requires, but also with synergistic bioflavonoids.

Vitamin C is an important antioxidant and promotes a healthy cardiovascular system.^o In addition, it provides nutritional support to your immune system, helps you maintain healthy eyes, liver and adrenal gland function, while serving as a key building block in collagen.^o Vitamin C also enhances the body’s ability to cope with occasional stress and frustration.

Lifepus uses only high-quality raw materials in manufacturing its nutritional supplements. Vitamin-C-Plus is formulated with the best possible sources of vitamin C to allow the body to fully utilize this essential vitamin.

About Lifepus

Help Someone You Care About

The opportunity for good health is one of the greatest gifts you can offer someone. We all have friends and family who are interested in maintaining or improving their quality of life. Do them and yourself a favor and share the Lifepus products with them. When you do, you can take advantage of a system that rewards those who share Lifepus with others.

The Lifepus Concept

The Lifepus concept is beautifully simple. We manufacture and distribute nutritional products direct to our customers and new customers are referred to Lifepus by existing customers. The new customers pay the same price as the existing customers who referred them, and share the same 100% satisfaction guarantee plus all the benefits that Lifepus products have to offer.

People who enjoy Lifepus products tend to recommend them to their friends and family in the same way they share other good products they've used, movies they've seen or restaurants they've eaten at. The only difference is that with Lifepus you are rewarded for making these referrals. You can even build a large customer base and turn a passion for Lifepus into extra money each month with the added bonus of working from home.

Some people turn this into a full-time occupation by finding others who would also like to participate and teaching them the Lifepus concept. And it works. All the while, helping other people improve the quality of their lives.

The Lifeplus Concept

Starting your own Lifeplus business couldn't be easier. If you enjoy a Lifeplus product and decide that you want to recommend it, you simply share the information about Lifeplus and if that person orders from the company, you are paid for your efforts.

Like your own order, new customers buy products direct from Lifeplus so there is never a need to stock or deliver products, fill out complex paperwork or handle value-added tax for anyone at any time. There are no starter kits to buy, no sign-up fees and no need to have specialized skills. Lifeplus simply pays out on multiple levels of referrals, which means that when you help other people improve their lives by building their own businesses, you are also helping yourself.

Your success is based purely on customer orders. In other words, the more people you help, the larger your business will grow. It's that simple. And since our quality products are in high demand, there is no shortage of people who are interested in learning about them.

If you decide to try the Lifeplus concept, you may receive a payment up to once a month for your efforts. It's a win-win-win situation. Lifeplus wins because we get new customers through your referral. You win because you enjoy the highest quality products at the fairest prices straight from the manufacturer, while at the same time earning income by referring others. The people you refer win because they get all the same benefits as you. To put it simply, Lifeplus does all of the 'heavy lifting' so you can enjoy a risk-free chance at starting your own business. We take care of all the book-keeping, manufacturing, inventory checks, order-taking, shipping and customer tracking. We provide excellent member support by phone, free e-commerce ready websites and worldwide support for your business. The team you will be working with provides all the training you will ever need to build as big (or as small) a business as you want. Best of all, working with Lifeplus will give you the satisfaction of helping others!

Here are a few things you should know.

Lifeplus is a compassionate business dedicated to helping people live the best life possible. Unfortunately, not everyone is committed to living the best life they can. We don't have to agree with their thinking but we do have to respect their choice, so we don't believe in pressuring people to become customers. We believe in giving people the chance to use our products without risk, so even though someone is buying direct from the manufacturer at the wholesale price, they still have an unconditional guarantee. If for any reason they are not satisfied, they can simply return the product within 30 days, no questions asked, and receive a refund. We believe in the concept of balance, in both business and personal life. This means taking care of your relationships, health, finances, and the other things that are important to you. The variety of on-going training in various areas of personal and professional development that we offer is a vital part of the Lifeplus concept.

Lifeplus was created by four men with widely diverse backgrounds who were brought together by a shared desire to build a business that actually helped other people. Together they created a new kind of company that focused on products that improve lives. Thanks to the passions exhibited by each of the founders, Lifeplus has had a long and proud history of stability built on great relationships. This stability and dedication has allowed all those involved to touch lives around the world.

From humble beginnings, Lifeplus has grown into a successful nutritional and health product business, serving people across the globe.
